Issue 2, Nov. 2019

Product Data Sheet

WHITE GENERAL PURPOSE TAPE

General purpose polypropylene tape

Thermakraft White General Purpose tape has an acrylic adhesive giving it superior bonding in a wide range of environments. It is commonly used on synthetic underlays, or damp-proof membranes such as Thermathene.

The tape is also ideal for sealing edges of vapour control layers.

White General Purpose Tape

General purpose polypropylene tape

Scope of Use

White General Purpose tape can be used to join the laps of wall and roof underlays, damp proof membranes (i.e. commonly refer to as concrete underlays) and other vapour control products such as foil underlays. Installer or designer must check the compatibility of the tape with the substrate manufacturer.

General

- Operating temperature from -10°C to 80°C.
- Roll Size 60mm wide x 66m long.
- Rolls are individually packaged.

Limitations

- Thermakraft White General Purpose Tape is NOT a window flashing tape and must NOT be used as a window flashing tape.

Product Warranty

For advice or information regarding Thermakraft products refer to Thermakraft literature or contact **1800 960 338**, visit **thermakraft.com.au** or follow the **QR code**.
